

304 Series™

Canopy Luminaire – Mounting R - Recessed Mount for canopy - FS (Petroleum Canopy)

Product Description

The Cree 304 Series version with recessed mounting system is a fixture designed to optimize the use of LED technology for lighting petrol station forecourt canopies. Luminaire is constructed from rugged die-cast and extruded aluminum components. LED driver is mounted in a sealed weathertight center chamber that allows for access from below the luminaire.

High performance heatsinks specifically designed for LED canopy application. Luminaire mounts directly to the canopy deck and is secured in place with diecast aluminum trim frame. Luminaire housing is provided with factory applied foam gasket and provides for a watertight seal between luminaire housing and canopy deck. In general, the 304 Series is the ideal solution for recessed mounting in metal suspended ceilings with a maximum thickness of 1 mm. A retrofit kit is available for 1 to 38 mm thickness and for any kind of ceiling.

Performance Summary

Utilizes BetaLED® Technology

Patented NanoOptic® Product Technology

CRI: Minimum 70 CRI

CCT: 5700K (+/- 500K) Standard, 4000K (+/- 300K)

Limited Warranty†:

10 years on luminaire / 10 years on Colorfast DeltaGuard® finish

Canopy Luminaire – Mounting R - Recessed Mount for canopy - FS (Petroleum Canopy)

Product Specifications

CONSTRUCTION & MATERIALS

- Luminaire is constructed from rugged die cast and extruded aluminum components. LED driver is mounted in a sealed weathertight center chamber that allows for access from below
- High performance heat sinks specifically designed for LED canopy application
- Luminaire mounts directly to the canopy deck and is secured in place with die-cast aluminum trim frame
- Luminaire housing is provided with factory applied foam gasket and provides for a watertight seal between luminaire housing and canopy deck
- Suitable for use in single and double skin canopies
- Designed for canopies of maximum 1mm thickness
- Exclusive Colorfast DeltaGuard® finish features an E-Coat epoxy primer with an ultra-durable powder topcoat, providing excellent resistance to corrosion, ultraviolet degradation and abrasion. Available colours are White, Silver, Silver Bronze, Bronze and Black

ELECTRICAL SYSTEM

- Input Voltage:** 220-240V, 50/60Hz
- Power Factor:** > 0.9 at full load
- Total Harmonic Distortion:** < 20% at full load
- Integral 10kV surge suppression protection standard
- To address inrush current, slow blow fuse or type C / D breaker should be used

REGULATORY & VOLUNTARY QUALIFICATIONS

- CE / ENEC Listed
- Enclosure rated IP66 per IEC 60529
- 10kV surge suppression protection tested in accordance with IEEE /ANSI C62.41.2
- Luminaire and finish endurance tested to withstand 5,000 hours of elevated ambient salt fog conditions as defined in ASTM Standard B 117
- RoHS Compliant

Photometry

All published luminaire photometric testing performed to IESNA LM-79-08 standards by a NVLAP certified laboratory.
