

IFP Series

Better Lighting for a Better Workplace

FLAT-OUT BETTER: ULTRA-THIN, EDGE-LIT DESIGN.

Impressive light experience

The IFP Series by Cree Lighting delivers a fully luminous panel of soft, visually comfortable light. The optically efficient edge-lit design provides a better lighting experience with perfectly superior light quality, improving spaces previously lit with outdated fluorescent luminaires.

Application flexibility

At just 9mm thin, the Cree lighting Flat Panel design allows for installation into any ceiling regardless of space and offers suspended mounting to create a more stylish environment.

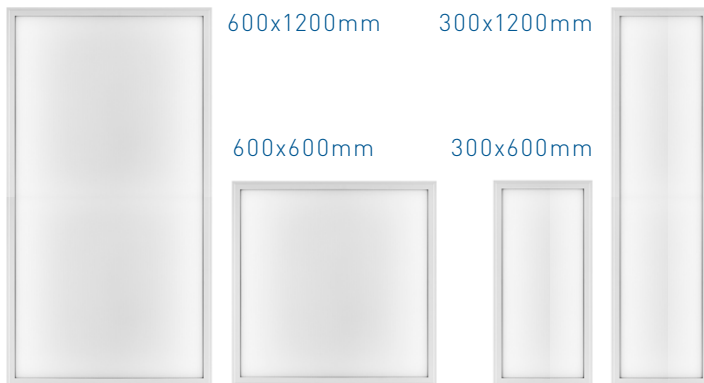

Refined low-glare optics

The low-glare optics of the IFP Series are designed to meet low-glare requirements and improve the customer experience by reducing lighting fatigue, providing an impressive lighting experience perfect for any commercial office, healthcare or school application.

With the new IFP Flat Panel Series

NO MATTER WHERE YOU PLAN TO USE THEM

The new IFP Flat Panel product family provides lighting customers with LED flat panel solutions for use in recessed and suspended commercial applications — all backed by the power of Cree. The fully luminous flat panel design transforms any space into a modern, visually comfortable environment with soft, balanced light. The remarkably thin 9mm depth of the IFP Flat Panel easily accommodates narrow plenums, or can be suspended for a more stylish look. The IFP Series is available in 300x600mm; 600x600mm; 300x1200mm; 600x1200mm configurations and delivers up to 7500 lumens of highly efficacious 111 lumens per watt light with superior color quality up to 90 CRI. The enhanced optics enable the Flat Panel to meet low glare requirements, delivering an improved customer experience by reducing lighting fatigue.

APPLICATIONS

Corporate Campus

IFP Flat Panel by Cree Lighting create appealing visual environments to help impress visitors and enable employees. Clean lines and balanced light distribution promote greater employee productivity while attractive pricing and impressive energy and maintenance savings color the bottom line green.

Education

Cree® lighting provides exceptional clarity and consistent full-spectrum lighting without glare to help minimize fatigue, encourage alertness and help students read and take notes with ease.

Healthcare

Soft, balanced lighting fosters a restful treatment and recovery environment. Efficient, dimmable and available in a variety of colors, IFP by Cree lighting produces a tranquil environment with quiet ceilings that provide a calm, soothing atmosphere for both patients and families.

Retail/Petroleum

Cree lighting helps attract customers inside and out. The exceptional color quality plays a critical role in shaping consumer moods and influencing buying decisions by creating an appealing sales floor and ensuring your merchandise is always rich and colorful.
